

Exciting general practice ownership opportunities await in Auckland.

Exchange has a current listings database of general practices in the Auckland area for sale due to the current GP owners retiring, semi-retiring or moving on. Whether you are looking for full ownership or a share in a practice there are fantastic opportunities for those looking to enter practice ownership.

The team at Exchange can provide support, advice, industry insights, personal introductions to those selling and guidance around the purchase of either a share or full ownership of a general practice.
